4 July 2019

To the Neighbours of Dulong Quarry,

RE: Overburden removal at Dulong Quarry, 98 Sherwell Rd, Dulong.

I would like to update you and advise you on the work that has been underway at Dulong Quarry and the work that Council will soon be commencing:

1. New fencing has been installed along the southern boundary on Dulong School Road. This project was delayed a few weeks due to the recent wet weather, however it should be completed by the end of this week;
2. Removal of already blasted rock from site. We now have removed enough material from the site for processing at our Image Flat Quarry. We were also able to put on fewer trucks during this activity each day to try and limit the truck traffic for the residents. Your patience was appreciated during this time.
3. Removal of overburden from site. I mentioned in my last letter that the removal of overburden was placed on hold. This has now changed, we plan to commence removing the overburden in the next few weeks and should be finished by October. This will mean the haul trucks will be using Sherwell Road between the hours of 6 am to 5 pm.
4. Blasting has now tentatively been placed on hold until after the overburden is removed. I will confirm the dates with you once we are closer to the date.

I have included my direct mobile number and email address at the top of this letter should you need to contact me at any time or for general enquiries please contact Council's customer contact centre on (07) 5475 7272.

If you would prefer to receive notifications electronically in the future, please send an email with the subject line "Notification" to quarries@sunshinecoast.qld.gov.au and I will ensure you're added to the mailing list.

Yours sincerely

Cameron Shields
